Advantages

Use

- Heavy industry
- Rolling mills
- Presses
- Punching presses

Delivered including custom-designed measurement system

Diagram at 1g

The measured values are valid only for measuring systems of the same construction!

The absorber flange decouples the measuring system Cxx-58 at 1g of impacts and oscillations, in horizontal mounting greater than 100 Hz and in vertical mounting greater than 1000 Hz.

Subject to change.
